UTTAR PRADESH

Course Title : Anatomical Drawing II

Course Code : DRAW121

Credit Units : 2

Level : UG

Course Objectives:

This course is dedicated in large part to the drawing and representation of the skeletal structure and musculature of the human body in detail. Students will learn the anatomical names of the skeletal elements, landmarks and muscle groups. Students will learn how to draw the structures of the human skeleton and then add the surface muscle groups and features appropriate to the skeletal sub-structure. The course will also explore the differences in the portrayal of male and female musculoskeletal features. Students will also be introduced to drawing animal forms and animal surface coverings

Prerequisites:

Ability to create various anatomic parts

Ability to create correct portions of muscles and flow of muscles

L	T	P/S	SW/FW	TOTAL CREDIT UNITS
-	1	2	0	2

Module : I	
Understanding skeletal structure Rendering human body in details	50%
Module : II	
Male and female musculoskeletal features	50%

Animal & birds skeletal structures	
------------------------------------	--

Student Learning Outcomes:

Ability to create male and female musculoskeletal features

Demonstration the skills to create anatomical structures of animal & birds skeletal structures

Assessment / Examination Scheme:						
Theory L/T (%)		Lab/Practical/Studio (%)			End Term Examination	
		45%			55%	
Practical Assessment (L&T):						
Continuous Assessment/Internal Assessment						End Term Examination (EE)
Component (Drop down)	Project (P)	Class Test (CT)	Presentation (C)	Home Assignment (H)	Attendance (AA)	
Weightage (%)	10%	10%	10%	10%	5%	55%
